PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building and deploying production-grade web applications and AI-powered systems using Java, Spring Boot, FastAPI, React.js, Next.js, Node.js, and PostgreSQL. Proficient across the complete SDLC including backend API development, frontend engineering, database design, cloud deployment on AWS, and CI/CD pipelines. Delivers scalable, secure, and maintainable software with real business impact in Agile/Scrum environments.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript

Frontend: React.js, Next.js, Responsive Design, HTML5, CSS3

Backend: Spring Boot, RESTful APIs, Microservices

Databases: PostgreSQL, MySQL

Cloud & DevOps: AWS EC2, Nginx, Linux, CI/CD Pipelines, Git, GitHub

AI & Automation: Prompt Engineering, n8n, ChatGPT, Gemini, GitHub Copilot

Tools: Postman, New Relic, IntelliJ IDEA, VS Code

WORK EXPERIENCE

Software Engineer Intern (Full Stack & SDET) | RemoSys Infosystems Pvt. Ltd. — Pune, India *Apr 2025 – Sep 2025*

- Engineered production-ready frontend modules in React.js and Next.js, streamlining validation workflows and reducing UI-level defect rate through improved component-level error handling.
- Migrated legacy encrypted Java JAR business logic into modular Spring Boot REST, improving codebase maintainability, testability, and long-term scalability.
- Implemented Java virtual threads (Project Loom) for concurrent API handling, increasing throughput under high-load scenarios without additional infrastructure cost.
- Deployed applications on AWS EC2 with Nginx reverse proxy, SSL/HTTPS termination, and environment-based secret management, ensuring consistent system uptime.
- Collaborated in Agile/Scrum sprints including planning, daily standups, and code reviews, consistently delivering features within sprint timelines.

PROJECTS

Human Resource Management System (HRMS) — *Next.js, FastAPI, PostgreSQL, SQLAlchemy, Tailwind CSS, JWT Authentication*

hrms.greatertechhub.com

- Architected and deployed a full-stack HRMS platform covering employee lifecycle management, attendance tracking, leave management, and payroll foundation for real organizational operations.
- Designed a JWT-secured RBAC system with five hierarchical permission tiers (Admin, HR, Manager, Employee, CEO), protecting all API routes and frontend navigation.
- Built scalable RESTful APIs using FastAPI with SQLAlchemy ORM and PostgreSQL, applying database normalization for efficient employee data management and business workflow automation.
- Developed responsive UIs using Next.js and Tailwind CSS with SSR, ensuring seamless cross-device experience and reduced page load times.

Quality Health Meter — *Spring Boot, React.js, PostgreSQL, AWS EC2, Nginx, Razorpay, Gmail API, react-pdf*
qhmeter.com

- Built a full-stack SaaS application using Spring Boot and React.js to analyze website URLs and auto-generate health diagnostic reports, eliminating manual analysis effort.
- Integrated Razorpay payment gateway and Gmail API for automated transactional workflows, enabling end-to-end business automation without manual intervention.

AI Developer Productivity Assistant — *Next.js, Node.js, Express.js, Groq Cloud, GPT-OSS-120B LLM, Tailwind CSS*

github.com/DarshanKGithub/GenAIDev-Assistant

- Developed an AI-powered coding assistant using Groq Cloud's GPT-OSS-120B LLM with modular prompt routing for code generation, debugging, and documentation tasks.
- Built a real-time streaming frontend with Next.js featuring syntax-highlighted code rendering and clipboard integration, reducing developer time-to-answer for engineering queries.
- Implemented secure API key handling, environment-based configuration, and GitHub push protection ensuring zero secret exposure across deployment workflows.

EDUCATION

M.Sc. Scientific Computing

Savitribai Phule Pune University, Pune

2023 – 2025

B.Sc. Computer Science

Vidya Pratisthan Arts, Commerce and Science College, Baramati

2020 – 2023
